NJDOT LOCAL AID

A SAFER COMMUNITY STARTS HERE

Create Change Where it Matters Most

When transportation safety is prioritized for all road users, residents experience greater comfort, freedom, and choices in their daily lives.

Community Benefits

Create attractive public spaces to boost local pride.

Encourage a healthier environment and reduce impacts.

Inspire all residents stay active, independent and engaged.

Targeted Improvements

Explore low-cost FHWA Proven Safety Countermeasures that can transform streets and strengthen communities.

Stop-Controlled Intersection Enhancements

Reduce fatal and injury crashes by **10%** and have a 12:1 benefit-cost ratio.

Walkways

Reduce pedestrian crashes by **65-89%**.

Leading Pedestrian Interval

Reduce pedestrian-vehicle crashes by **13%.**

Smart road design can reduce speeding and save lives.

23% of traffic fatalities in New Jersey from 2014 to 2024 involved speeding.

Support Target Zero

County and municipal roads represent 30% of NJDOT's High Injury Network.

Support New Jersey's Target Zero initiative to eliminate traffic fatalities and serious injuries by 2040 by focusing on high-need safety areas. Use the Target Zero Commission to identify crash-prone locations.
